REITMAN PERSONNEL SEEKS

Applications Specialist, Central, CT

Our client is a world renowned HVAC corporation that is looking for an Applications Specialist that will be responsible for all technical aspects of HVAC equipment for commercial construction projects. This by far on of highest regarded companies in the their industry.

This is an ideal opportunity for an energetic, bright, engineer, who is excited about managing real projects and enjoys communicating as you will be working with all types of commercial clients. You will provide technical support throughout the life of the project from selecting the design and configuration of equipment, pricing, proposal generation and order preparation

Essential Functions and Responsibilities include the following:

- * Participate in pre-bid meetings to develop bid strategies
- * Create project proposals
- * Validate project scope of work. Validate equipment quantities, configurations, and performance by reviewing transition documents and plans and specifications * Obtain factory discounts, verify equipment pricing and optimize equipment multipliers and non-company equipment mark-ups to maximize project financial performance
- * Document work by maintaining files and electronic records for each project
- * Flexibility to work outside normal work hours, as required
- * Carry out supervisory responsibilities in accordance with the organization's policies and applicable laws including planning, assigning and directing work and appraising performance

The right candidate will have Bachelor's degree in Engineering or at least four years of experience in the HVAC industry performing project management or estimating roles. Windows/Microsoft Office product knowledge. Familiarity with HVAC Systems and/or Temperature Controls preferred.

Compensation: Competitive salary, bonus with great benefits.
