The School of Engineering offers twelve programs leading to a Bachelor of Science in the fields of Biomedical Engineering, Chemical Engineering, Civil and Environmental Engineering, Computer Engineering, Computer Science, Computer Science & Engineering, Electrical & Computer Engineering, Engineering Physics, Management & Engineering, Mechanical Engineering and Materials Science & Engineering. This one week residential Engineering program will provide an opportunity to learn what engineers do in each field. Equally important, we can provide you with an opportunity to focus on a particular major by attending special evening Young Engineering Scholars Science Program (YESS) activities.

To assist us in planning for the evening focus and Friday portions of ENGINEERING 2000, please assign a preference to the majors (#1 being the highest priority). Please assign a priority (1 - 7) to **ALL** programs.
