

Biomaterials for Tissue Regeneration

Mei Wei, Associate Professor

Materials Science and Engineering Program

Department of Chemical, Materials and Biomolecular Eng

GAANN

- Materials Science and Engineering

- This GAANN program is administered by a multi-disciplinary team of faculty from both the UConn Storrs and Farmington (UConn Health Center) campuses.
- Unique feature: Close collaboration between the scientists in both campuses and the close association with clinical and basic biological scientists
- Support at least 5 fellows

GAANN Faculty

- 21 faculty from both campuses are involved in the program
- 10 of them will serve as major advisors:
 - Mei Wei (Director, UConn Storrs)
 - Jon Goldberg (Co-director, UCHC)
 - Barry Carter (UConn Storrs)
 - Bryan Huey (UConn Storrs)
 - Yusuf Khan (UCHC)
 - Liisa Kuhn (UCHC)
 - Sangamesh Kumbar (UCHC)
 - Cato Laurencin (UCHC)
 - Lakshmi Nair (UCHC)
 - Syam Nukavarapu (UCHC)

Requirement for GAANN fellows

- US citizen or permanent resident
- Enrolled in **Materials Science and Engineering Program** and pursuing PhD degree
- **Strong interest in conducting research in “biomaterials for tissue regeneration”**
- Good academic record
- Illustrate financial need
- Minority and female are encouraged to apply
