The Department of Defense is recruiting 50 science, technology, engineering, and mathematics students for a 10-week summer internship. The Joint Educational Opportunities for Minorities (JEOM) internship is an opportunity for students to learn how to conduct research and work on exciting and rewarding projects at national laboratories and test centers across the country, including:

- Air Force Research Laboratory
  - Wright-Patterson Air Force Base, OH and

- High Performance Computing Modernization Program Office
  - Lorton, VA
  - www.hpc.hpc.mil
- Space & Missile Defense Command
  - Huntsville, AL
  - www.smdc.army.mil

Visit each site to learn more about their computing resources and what types of work interns will be involved in. Examples include: biotechnology, maneuverability and terrain physics simulation, battlespace environments simulation, molecular modeling, materiel impact estimation, and weapons design and testing.

Applicants must be enrolled in an undergraduate or graduate program in science, technology, engineering, and mathematics (STEM) disciplines. All individuals are welcome to apply, including white men, women, minorities, and citizens from other countries. JEOM offers a competitive stipend, travel expenses to/from the internship location, and an opportunity to network with leaders in the science and technology community at a technical conference and Summer Colloquium in Seattle, Washington. Students will not be required to enlist in any of the military Services (Army, Navy, or Air Force).

To apply, submit an online application at http://www.hpc.hpc.mil/JOEM/howtoapply.php.
Also, please send a transcript and two letters of recommendation to:

HPCMP
JEOM Program Manager
10501 Furnace Road, Suite 101
Lorton, VA 22079-2632
The application deadline is March 10, 2008; faxes or emails are acceptable. If you have problems with the online application, a paper version is posted on the HPCMP JEOM webpage. For more information, email JEOM-Summer-Intern@hpcmo.hpc.mil.
