

**REQUEST FOR NOMINATIONS**  
**Distinguished Engineering Awards**  
**School of Engineering**  
**University of Connecticut**

The University of Connecticut Distinguished Engineering Awards and induction into the Academy of Distinguished Engineers are presented to outstanding alumni for distinguished professional achievement and to non-alumni for distinguished leadership to the School of Engineering.

**Distinguished Professional Achievement Award (alumni)**

The Distinguished Professional Achievement Award and election into the Academy of Distinguished Engineers honors individuals whose careers are characterized by their sustained and meritorious contributions to engineering and engineering management in the highest tradition of the School.

*Eligibility Criteria*

- Each candidate shall hold a bachelor's, master's or doctoral degree in engineering from the University of Connecticut, granted at least 10 years prior to election.
- Membership is reserved for graduates who have made sustained and meritorious engineering, managerial or policy contributions throughout their careers.
- Nominees may be active or retired from their full-time employment.
- Nominees will generally have at least 15 years of sustained professional service.
- Nominees shall **not** be active faculty or staff at the University of Connecticut.

**Distinguished Engineering Leadership Award (non-alumni)**

The Distinguished Engineering Leadership Award and induction into the Academy of Distinguished Engineers is awarded to non-graduates of the University of Connecticut School of Engineering, based on contributions to the School of Engineering and excellence in their profession.

*Eligibility Criteria*

- Nominees will be individuals who are actively involved in engineering, management or service – or who have played a crucial legislative or policy making role at the State or federal level at the time of the nomination.
- Nominees will have a distinguished record of service to the School of Engineering.
- Nominees shall **not** be active faculty or staff at the University of Connecticut.

A committee of alumni and faculty will select the recipients of each award. Recipients of the awards will be formally honored by the Dean and University administration at an awards dinner to be held in early April. In addition, each recipient will be profiled briefly in the School of Engineering news magazine, *emagination*.

Please communicate your Intent to Nominate by Friday, October 12<sup>th</sup> by sending a brief e-mail to [soeaward@engr.uconn.edu](mailto:soeaward@engr.uconn.edu). Full nominations must be received by Friday, November 2, 2012.

Nomination information as identified on the attached form may be submitted via email to [soeaward@engr.uconn.edu](mailto:soeaward@engr.uconn.edu).

Describe the nominee's outstanding technical, professional, managerial, research, and/or educational accomplishments. It is important to emphasize specific accomplishments in these areas that qualify the nominee for the award.

The enduring contributions to the University of Connecticut and the School of Engineering should be described for *all nominees*. **Attach recent resume or detailed bio.**
