*Innovation Quest is proudly partnered with the University of Connecticut and its Office of Economic Development to bring student innovations and business successes to the world.*

*Innovation Quest is a 501c(3) nonprofit foundation founded by students and alumni -- for students like you. This is the inaugural UConn-iQ competition. The program comes to UConn, and builds upon the success experienced at Cal Poly, where 13 companies have been funded and launched through iQ. The program brings current entrepreneurial-minded students together with successful UConn alumni from a variety of industries to make their business ideas become a reality. Be part of the energy!*
