The School of Engineering gratefully acknowledges the generous support of United Technologies Corporation in funding the “Explore Engineering” scholarships. The financial support of these donors allowed us to keep the Explore Engineering tuition low for all participants, enabled us to cover the full cost of tuition for one student, and offer reduced tuition for two students in need.

In June 2019, 115 high school students participated. The students came from:

- **104** CONNECTICUT
- **4** MASSACHUSETTS
- **2** NEW YORK
- **4** NEW JERSEY
- **1** RHODE ISLAND
The School of Engineering gratefully acknowledges the generous support of United Technologies Corporation and the ONR Navy STEM Program in funding the “Explore Engineering” scholarships. The financial support of these donors allowed us to keep the SPARK tuition low for all participants, enabled us to cover the full cost of tuition for eight (8) students, partial scholarships of $670 for six (6) students, half payment for twenty-one students, and other discounts to another seven (7) girls in need.

In July 2019, 112 middle and high school students participated. The students chosen came from:

- **Connecticut**: 97
- **Massachusetts**: 3
- **New York**: 3
- **New Jersey**: 5
- **Washington, DC**: 1
- **Ghana, Africa**: 1
BRIDGE PROGRAM SCHOLARSHIPS AWARDS

BRIDGE is a five-week intensive summer program held at the Storrs campus. This program is designed to prepare students who are underrepresented in engineering fields for the rigor of engineering curriculum at UConn, introduce leadership opportunities and careers in engineering, and to familiarize students with the University of Connecticut and the college experience as a whole.

Students will attend classes in Calculus, Physics, Chemistry, and Computer Science. In addition to these classes, students will attend industry tours of the most prominent engineering companies in Connecticut to network with professionals and learn about what career opportunities are available after graduation. The BRIDGE program highlights the necessity of having a strong work ethic and dedication to academics as a student in the School of Engineering.
